Level 4 Lockdown

We did not expect this update to be coming out during lockdown. Even though, this situation has been a surprise, you have all been amazing and reminded us what a dedicated and special group of people you all are. There are regular updates on the Webcare homepage and of course, in the daily snapshot, but if you have any questions, please do contact any of the Exec. We are all currently working remotely, as we follow COVID Level 4 guidelines, however we are all online and available to you if you need anything.

Trust Strategy

Recently, the Exec Team and Board met to set the strategy for the Trust, that ensures we can sustainably provide a high level of service to Life Stylers and a positive employment experience for staff. A strategy is basically a plan that sets the actions needed for us to achieve our goals. This plan is built through consideration of how the Trust is currently operating, good and bad; what internal and external factors may affect us, e.g. COVID, and through feedback from Life Stylers, families and of course, staff.

During the performance review process, you will be set team goals and you will be invited to set individual goals. Each of these will align to our strategy and therefore, it means each and every one of us is participating in achieving the desired outcomes.

We will communicate the strategy for the next twelve months to you soon.
